ITINERARY

June 21

LAS VEGAS TO CEDAR BREAKS NATIONAL MONUMENT

Arrive independently the previous night. Meet for an early morning orientation at the Las Vegas DoubleTree, before we depart. After stopping in St. George for lunch, continue to Cedar Breaks National Monument, which encompasses a 5-mile wide natural limestone amphitheater. From its 10,000-foot-high rim, experience views across the multi-hued cliffs, spires, and arches of its eroded slopes. Hike the 2-mile Alpine Pond Trail, set amid spruce trees and bristlecone pines. Continue to Bryce Canyon National Park. *The Lodge at Bryce Canyon (L,D)*

June 22

BRYCE CANYON NATIONAL PARK

Visit the Bryce Canyon Visitor Center and hike the Rim Trail. Experience the canyon's intricate geological display from the rim at Bryce Point and Paria View, and below the rim on the Navajo and Queens Garden Trails on a 3-mile loop. This afternoon savor the ambiance of the Lodge, designed in 1924 by master architect Gilbert Stanley Underwood. The lodge and its cabins were recognized in 1987 as a National Historic Landmark. *The Lodge at Bryce Canyon (B,L,D)*

June 23

GRAND STAIRCASE-ESCALANTE NATIONAL MONUMENT

Travel along scenic highway 12 to Grand Staircase Escalante. Explore one of the narrow, steep-walled slot canyons characteristic to the Escalante Country, as it branches off of Long Canyon. Travel through pinyon-juniper woodlands to the rim of the hundred-mile-long monocline known as the Waterpocket Fold, which once blocked the progress of emigrant wagon trains. *Lodge at Red River Ranch (B,L,D)*

June 24

CAPITOL REEF NATIONAL PARK

Visit the pioneer Mormon community of Fruita, including a stop at the old schoolhouse, in the verdant bottomlands of the Fremont River. View petroglyphs and take a 3-mile hike into the Fold on the Grand Wash Trail. Return via the 2-mile trail in Cohab Canyon. *Lodge at Red River Ranch (B,L,D)*

June 25

ANASAZI STATE PARK & ZION NATIONAL PARK

Visit Anasazi State Park, the anthropology museum, and the excavated site of a thousand-year-old village. The Fremont prehistoric people occupied most of Utah during the same period as the Ancestral Puebloans. Artifacts recovered from this site, as well as its architecture, reflect a prehistoric "melting pot." Take a 3-mile, out-and-back hike along the Escalante River crossing it several times before continuing on to Zion, the oldest of the parks on this tour. *Desert Pearl Inn (B,L,D)*

June 26

ZION NATIONAL PARK

Enjoy a 1-mile roundtrip hike up to the canyon rim for an overview of Zion. Explore the area along the Virgin River within Zion Canyon, the heart of the park. Take a shuttle bus ride to the Temple of Sinawava and continue on foot along the paved Riverside Walk trail to the Narrows of Zion Canyon. Enter the river for a unique hiking experience, traveling a few miles further through the river (water shoes needed) for a total of 4 miles roundtrip. This afternoon visit the Zion Human History Museum. *Desert Pearl Inn (B,L,D)*

June 27

ZION NATIONAL PARK TO LAS VEGAS

Relax at the hotel or head back into Zion for an optional 4-mile hike to Scout Lookout. After freshening up, depart for Las Vegas with a lunch stop on the way. Please book your flights for 6:00 p.m. or later. *(B,L)*

① **Cedar Breaks**, which became a national monument in 1933, has the highest elevation of the parks we visit. Much of its original facility development done by the Civilian Conservation Corps, such as the 1937 visitor center, is still in use.

② **Bryce Canyon** became a national monument administered by the US Forest Service in 1928. Hotels in the park, like the one we stay in, originally were developed by The Union Pacific Railroad.

③ **Grand Staircase-Escalante**, unlike the National Park System, is administered by the US Bureau of Land Management. Little development exists within its boundaries.

④ **Capitol Reef** was first a National Monument created in 1937. In 1969, a presidential proclamation expanded it, then Congress authorized the monument to become a National Park in 1971.

⑤ **Zion** originated as a national monument created from the public domain by a presidential proclamation. Congress legislated the creation of Zion National Park—the first in Utah—in 1919.

WHAT TO EXPECT

Average temperatures in June range from day-time highs in the 70-90s and overnight lows down to the 40s-50s. We'll also be at a variety of elevations from 4,000 to over 10,000 feet. Our transportation around the region is by van. Given the vastness of the area, there is some time to be spent in the van driving between parks, but we've designed it so you alternate days with longer drives (3 to 4 ½ hrs) with days with much less driving (1 to 2 hrs). Travelers should be in active good health to participate in this trip. Most hikes are between 2 to 5 miles with a 200 to 500 feet elevation gain. While walks are not too strenuous, some are over uneven terrain and may require the use of hands and feet to climb over obstructions. Two hikes include walking through stretches of rivers so closed-toe water shoes are needed. Our longest day of hiking is up to 5 miles, with approximately 1,000 feet in elevation gain. Most hikes are "out and back" so participants can go as far as they like, and then wait for the group to return. Optional trekking poles will be provided to all guests for the duration of the tour.

STUDY LEADER FRANK ACKERMAN

Study leader Frank Ackerman, pictured right, is a retired National Park Service Ranger. His 30-year career included posts at the Grand Canyon, Death Valley and Voyageurs National Parks. He finished his time with the Park Service at Cape Cod National Seashore where he served as the Chief of Interpretation. After his initial retirement, Frank helped create an award-winning interpretative program as part of a joint venture between Amtrak and the National Park Service to provide educational commentary on select passenger trains in the Northeast. He recently retired as Director of the Nevada State Railroad Museum in Carson City, NV and now lives in Fremont. As we journey between parks, Frank will discuss the evolution of park policy over the past 100 years and, in specific, the delicate balance of the dual mandate of preservation and promotion of visitation. He is also excited to teach you about the spectacular desert flora and fauna, and the geology and human history of the region.
